

permobil

Accessorize your chair.

With the help of knowledgeable people, the chair is tested to fit you perfectly. The size of the seat, the height of backrest and electrical functions are examples of important choices to begin with.

But sometimes it does not matter how many choices there are on a standard chair. You may need extra support to create perfect comfort or safety.

Or you may need to solve practical everyday life challenges. Tables, storage facilities or alternative tires can be important extras. Your ride in the car can be made easier and safer with a wheelchair lock. There are several extra solutions for your chair, make your ride perfect!

UNITRACK ACCESSORIES SYSTEM

The system consists of a few simple elements that you combine and attach to a rail on the chair. Then choose which Cushion you want and you get the support in the exact right place and with the right shape. This creates endless possibilities when it comes to customization and adjustments!

UNITRACK

ACCESSORIES UNITRACK RAIL

The foundation of our accessories system is the rail. The rail enables stepless adjustment.

ADJUSTMENTS LINKS

Links enables rotation of cushion while the rest stay fixed. The links are durable and adjustable in the smallest steps, almost stepless felling. Combine and attach for perfect fit!

QUICK MOUNT

Turn handle 180° and it is locked.

For lateral support there is also swing away lock.

CUSHIONS

Detachable cushions in different shapes and sizes. Covers made of breathable material. Cushions are used for different parts of the body. For example a calf support with cushion A it will be named calf support A 150x140.

A 150x140
B 110x90
C 200x90

D 200x200
E 220x150
F 220x90

G 300x90
H 170x175
J 165x120

Steering system Pilot+/R-net/VR2/Safegate

Our most advanced control system R-Net, in combination with Intelligent Control System (ICS), enhances a new dimension when it comes to driving experience, security and coordination of features. R-net/ICS is initially designed to control a variety of features and information. The system has almost unlimited possibilities.

MAGIC DRIVE TOUCH

MagicDrive Touch™

We want to give you the ability to control things in your environment from the wheelchair. Control the door opener and TV with the same device that controls your wheelchair. MagicDrive Touch is also used for phonecalls, digital media or modern speech technology.

BASE UNIT

0028-7009A

CHARGER

7000-7007A

DONGLE, 6 EXITS

0060-7004A

ENVIRONMENT

MagicDrive Touch uses the latest technology. It is equipped with both IR and Z-wave, it is easy to connect to various things in your environment. Of course, we have not forgotten the security it can be connected directly to an alarm system.

COMMUNICATION

Take advantage of modern digital media, phone and synthetics. Recording features allow you to record audio that can then be used as short spoken messages. There is also a feature that allows you to call someone and "talk" with him/her even if you can not use your own voice.

You can control the MagicDrive Touch with touch screen, joystick on your wheelchair, external switch, USB keyboard or any of our alternative control systems.

BASE UNIT

MagicDrive Touch 420 (IR, Z-wave, diary, contact management, calculator, phone, batteries, touchscreen in color, 4GB storage space, USB connection, headphone jack, built-in speakers).

ALTERNATIVE

Media tool

TTS (Text To Speech) Feedback

TTS (Text To Speech) Messenger

Language choice TTS-voice

Magic Drive Multi Controller

MAGIC DRIVE MULTI CONTROLLER

The system connects a series of functions directly to the base unit, which allows you to use different solutions to control your wheelchair. You can, steer with your head or chin, or control your seating system.

But maybe it's not just the wheelchair you want to control. Your home is full of things you need to control; doors, TV, computer, yes there are certainly several. You can directly control these things in your environment.
